## TRAFFIC MIRRORS

Mirror Technology has designed a range of convex mirrors to improve vision round blind corners and at road junctions. These are listed below. Full details on individual mirrors are available from our sales office.

**TM 7045** A wide angle general purpose mirror. Suitable for driveways and light traffic.  
700x450mm max

**RTM 75 & 90** Heavy duty mirrors with side panes in a variety of colours  
450x850 & 550x1000mm

**FVX** series circular mirrors available from 480mm to 920mm diameter.

For increased vandal resistance some mirrors are available in stainless steel or polycarbonate.
